

First sim card activation

Because of the legal in Korea, Prepaid-SIM cards have to be activated before using. If the arrival date is defined, the activation of the card can be made. You can define the date of arrival in the activation process, so that the card is first unlocked from this point.

- please make a photo of your passport
- visit our activation website:
simcard-korea.com/activate
- confirm the guidelines and enter the following information:
 - Mobile phone number
 - Last 3 numbers of the serial code
 - arrival date
 - Passnumber, Full Name
 - ID card (photo)

The final card activation will be done about 20 hours before arrival date, so the simcard can be used without delay in korea.

After activation its possible to book additional services:

Packet	₩	Available for
voice amount 10,000	10,000	all packages
voice amount 20,000	20,000	all packages
voice amount 30,000	30,000	all packages
LTE 500 MB	8,800	not for premium
LTE 1 GB	14,300	not for premium
LTE 2 GB	19,800	not for premium
additional month unlimited	58,500	premium only

Important information !

- card activation on:
www.simcard-korea.com/activate
- Take care to enter correct arrival date, cause it will be checked at immigration office.
- Please make sure that your mobile phone supports LTE or 3G (frequency 2100, 1800+, 900)
- Due regulations only one simcard per person is allowed.

First use in korea

Make sure that you are connected to the mobile network „olleh“ or „kt“. Please start a manual network search: For Android, this is possible under Settings -> Network Connections -> Mobile networks -> Network operators. The search / connection can last up to 2 minutes. If you have problems start your phone 2-3 times again and repeat the process. It will not require any PIN. If it is still not working please send us your IMEI number (enter mobile code *#06#) to: info@simcard-korea.com

Wifi / olleh-hotspots (only 3G-card)

If you book at least a „500 MB“-Internet package you can freely use the olleh Wifi network without any costs. The authentication is done automatically. If you cannot access and are redirected to the website „Prepaid-Login“ please deliver the following information to info@simcard-korea.com: phone number, IMEI, MAC-address of mobile phone. If you use our app please click on „Wifi-Support“ to deliver automatically.

Phone calls

For local calls please directly dial desired number. For international calls you need to dial prefix number. Please dial e.g. 00345 + Countrycode + phone number (without 0). Example: 00345 49 2153 9704900 to call our european customer service center. For more information please visit our website on: www.simcard-korea.com

Internet configuration

Our internet packages are valid for 30 days. Please make sure to use the following APN settings:

Name : kt
APN : lte.ktfwing.com
MMSC : http://mmsc.ktfwing.com:9082
MCC : 450 MCN : 08

On iPhone your APN settings maybe are not changeable. In this case please visit with your mobile phone the website apnhero.com and choose Korea & „KT“ as provider. Your APN profil will be set automaticly.

Validity

The activation of the card has to take place no later than 5 months after purchase. The validity of the card is established on 90 days from the day of the activation. If you want to use the card longer, please request extend at: info@simcard-korea.com
