

## Further Information

**Phone calls** | For calls within Korea, simply dial the number you want. If you want to call abroad (e.g. Germany), you must select a provider code from Korea. Choose e.g. 005 + country code without 00 + area code without 00 + phone number. Example: 005 49 2153 9704900 to call our customer service.

**International provider code: 005**

**Internet use** | If you have problems with the internet connection, please check the APN settings. These are located on the sticker on the SIM card. These settings may be locked on the iPhone. In this case, please go to [korea.apnhero.com](http://korea.apnhero.com) with Safari via a WiFi connection.

**Smartphones** | If you want to use an older mobile phone model in Korea, please make sure that it supports LTE or 3G (frequencies 2100, 1800+).

**Price** | Current prices for the SIM card, telephony and Internet packages can be found on our website:
